## AMERICA TO ENGLAND

Operative Potters Send an Important Document

ASKING HIGHER ENGLISH WAGES

So That Competition With This Country Will Not Be So Sharp.—The Ground Taken That Some One Should Benefit From the Reduced Tariff Other Than the English Manufacturers.

The London Pottery Gazette for April contains the following, which will interest every one in the city:

An important letter from the officers of the Potters' National Association of America has been received by Mr. Owen, of Burslem, as secretary for the central committee of the working potters of North Staffordshire. The document, which deals with the situation created by the passing of the tariff act, and contains some striking proposals for an improvement in the potters' rate of wages, commences by pointing out that the potters in the two countries have a common interest and adds: "The American pottery industry, up to the passing of the Wilson bill, has been in some degree protected by the high tariff levied upon imported pottery goods; but now this Wilson bill has reduced the duty upon your goods from 60 per cent. to 35 per cent. on decorated, and from 55 per cent. to 30 per cent. on white ware—a cut down of nearly one-half—our feeling is that the best protection for labor in one country is that the working potters in both countries should receive an adequate remuneration for skilled labor according as their employment is a tax upon the physical energies and health of the man who spends his powers to live. Is such a rate of pay given in Staffordshire or other parts of the country? You can best answer that question; but we have sufficient knowledge of the fact that a dollar's worth of pay is not given to English potters for a dollar's worth skill and sweat. Now with such a reduction in the United States duty we had anticipated that a portion of the duty would have found its way into the pockets of the English working potters by an advance upon your working price, and that such a wages increase would have prevented the English manufacturer from reducing from their selling price in our markets to the full extent of the difference between the McKinley and Wilson tariffs. But in a mad eagerness to exploit the American crockery market before it has time, with the general trade of this country, to recover from its depression, the English manufacturers have rushed to get business, and all the difference that the Wilson bill makes has been more than given away by reduced prices for goods offered. So labor in England and the United States is to be crucified between the forces of selfish competition if you, and we, your fellow-workers in the States do not join together in self-protection, which will also be the best kind of potting trade protection. We have one interest, and we appeal to you to assert your rights by obtaining such an increase in your wages as will in some degree place you in the position you occupied in former years. "Why do we make this appeal, and what grounds have we for it? First, the underpaid labor in England is a standing menace to our being able to maintain anything like a fair rate to pay here commensurate with a position in a free country where skilled labor is supposed to have a chance to live in decent comfort. Second, there is no doubt that had the manufacturers taken common action your reduction in the potting schedule of the Wilson bill would have been 40 and 45, instead of 30 and 35—in other words, the Wilson tariff would have been 10 per cent more on the value of the goods. But what we wish to urge upon you is that that extra 10 per cent reduction in the tariff is what we think ought to be appropriated to raising the scale of pay of our fellow-workers in England. Third, it is well known here by what a slender thread that 10 per cent hung, and the reduction would only have been what we know you in England were looking forward to, viz., the 40 and 45.

"But we must admit your timely help last spring, which enabled us to resist the attempt upon our wages, forced upon us the conviction that the best protection between English and American potters was help in time of need. In July next the agreement between the manufacturers and the operatives here terminates, and we know an advance in your wages would materially help to keep our wages; but if you are content with your present position, and your bosses would rather the money got into the exchequer of the United States than into your pockets, then we may be compelled to oblige them, and join in

action that may mean a reimposition of part of the duty the Wilson bill has removed. We cannot, however, think that you will prefer this course of self-effacement, and to avoid this we not only appeal to you to raise yourselves as wage-earners, but promise you all assistance in our power should you need practical help; and here, let us say, in conclusion, why should we not have one common fund for trade protection purposes only, a fund accumulated from equal payments per member, and giving equal benefit to each one in each country? So let us try to defend our trade rights, and maintain a living wage-rate according to the best conditions of life in each country.—Signed on behalf of the working potters of America.

"THOMAS DENNIS, Secretary.  
"JOHN W. MORGAN, President.  
"Potters' National Union of America, headquarters, Trenton, New Jersey."

This letter was read at a meeting, on Saturday, of the North Staffordshire central committee, and it was resolved that it be referred to the consideration of the local potters' trade society and that the employers of the district and the manufacturers association be approached upon the subject. The general feeling of the representatives present was that under all the conditions of trade existing in the district they could not ask the working potters to take any offensive operations at the present time, but the subject matter of the address we felt to be so important to the manufacturers of the district, as well as to the men, that they decided to ask the former to meet the latter on the subject.

### WHERE THEY PLAY.

Liverpool Boys Who Are on the Diamond, Base Ball News.

The members of the Twin city ball team in this city have been notified to report for duty on Saturday of this week. The boys are in good practice, having spent a greater part of the past two weeks on the ball grounds. It is expected that they, like the other Liverpool boys, will succeed in making good records for themselves.

Robert and George Westlake left last night to play ball in the Pennsylvania state league this summer. Robert with Hazleton and George with Carbondale. Both players have established records, having played ball professionally for several seasons.

The following Liverpool people are now playing away from home: Mercer, Washington; Carey, Baltimore; Welch, Syracuse; W. Carey, Haverhill; Shaw, Salem; Myler, Lawrence; Darrah and Reark, Twin city; J. Carey, Bethany; Hall and Gaston, Wooster university; Albright and Steele, Adrian college. The boys have all played professional ball before, and if their records for the past is any criterion they will come home at the end of the season with many new laurels.

The makeup of the Young Men's Christian association team, which plays at Steubenville Monday, is as follows:

J. Cartwright, catcher; Davidson, pitcher; P. McShane, short; J. McShane, first; Kennedy, second; Tolbert, third; Twaddle, left; McNutt, center; Joe Cartwright, right; Herbert and Laughlin, subs. The boys are all in fine trim, and will endeavor to wrest victory from the Steubenville team.

### A PRETTY WEDDING.

Rev. Charles Glatzert and Miss Elizabeth Ashler Married Today.

A large audience this morning witnessed a beautiful wedding ceremony at the German Evangelical Lutheran church which united for life the Rev. Charles Glatzert and Miss Elizabeth Ashler. Amid the strains of Mendelssohn's wedding march the bridal procession entered the church, headed by Master Phillip Reinartz bearing the bride's hymn book, and Miss Marie Deitz carrying the bridal bouquet. Mr. Frank Schultz, of New Castle, Pa., was the groom's best man, and Miss Margaretta Horst acted as bridesmaid. After Rev. R. Morris Smith, of Baden, Pa., had read a scriptural lesson and offered prayer, Reverend Reinartz delivered the wedding discourse, taking as his text: Psalms xxxvii chapter, 4th verse. Then the bridal couple advanced to the altar and the pastor spoke the solemn words which made them man and wife. Congratulations were showered upon them by their many friends. A lunch was daintily served at the parsonage and the bridal couple, accompanied by Rev. and Mrs. Reinartz, Reverend and Mrs. Smith, Mr. Frank Schultz and Miss Margaretta Horst took the noon train for their new home, New Castle, Pa.

## ABOUT A LABOR PAPER

Trades Council Speaks Aloud to Business Men.

THIS HAS NO UNCERTAIN RING

The Organized Labor of East Liverpool Will Not Admit of Misrepresentation to Resident Merchants and Business Men. Action of Trades Council Assembled Last Night.

There has been in existence, for some time past, among the organized labor lovers of East Liverpool, the idea that a paper representing unionism and the advantages to be derived therefrom should be published in this city; not because representation has been refused the workmen of this community in the columns of the daily press, for the exact opposite is known to be the truth; but simply for the reason that the paper contemplated would be distinctly and definitely known as a labor paper, published for the specific purpose of placing organized labor and its principles before the public at large in the most favorable light consistent with right and truth. It has not been thought judicious to enter journalism at the present time through the medium of a daily publication, as, in the judgment of intelligent and conservative mechanics and tradesmen, this field is not yet ripe for such an enterprise, although that day may come before many years pass away. A weekly paper was thought to be the proper sheet to issue, and steps were about being taken to enter the field of journalism in this city, when a supposititious journal, claiming to have authority to represent the organized labor of this community, entered the field and solicited financial aid and assistance, both from workmen and from business men. Mutterings have been heard upon all sides, among union men, in consequence, and Trades Council placed the seal of its condemnation upon the project, at a meeting held not long since. The individual who was at the head of the contemplated weekly affected to sneer at Trades Council and what that council represents, and our business men state that they have been impressed with the thought that the paper about to be issued, and for which aid has been solicited of them, represents the union labor of East Liverpool. Cognizant of this, Trades Council met in session last night and discussed the matter, with the following decisive action:

"WHEREAS, It having come to the notice of members of this body that certain parties about to start a paper have been representing to the people and business men of this city and Wellsville that they have the endorsement of this trades' council and local unions subordinate thereto, be it, Resolved, That we inform the public that the alleged labor paper, about to be published, has not the endorsement of Trades and Labor council of East Liverpool, O."

TRADES COUNCIL.  
WILLIAM RUHE, President.

### No Word of the German.

Chief Gill has heard nothing of the German who got away with Mrs. Voegtli's pocketbook, and thinks that the fellow has gone for good. The chief looks upon the man as one well trained in the art of stealing, and inclines to the belief that he is some German thief, who, having been transported for crime on the other side of the water, is pursuing his lawlessness in this country with success. There is no doubt about the man being fresh from Germany, as people of that nationality who knew him here say that he bore all the evidences of a new arrival.

### After Another Boat.

Captain Lee Anshutz, formerly of the Andes, but later of the Evansville, which made her first appearance here last week, is negotiating for the purchase of the Water Maiden, now at Zanesville, on the Muskingum. The boat is a small one, built to go through the proposed ship canal between Cleveland and Coshocton, and will be used in the excursion business, should Captain Anshutz succeed in securing her. The boat is about the same size as the Scaramouch, and can tow a large barge.

### Housecleaning.

There was a general air of hustle at the People's store this morning, occasioned by the regular monthly housecleaning. Each and every individual connected with the establishment was up to his or her eyes in the general jubilee.

### John Locke Married.

Miss Sophrona T. White, of Sewickley, and John T. Locke, of Cambridge, were married last evening

at the home of the bride. The decorations were lavish, and the bride wore a magnificent gown of white satin. Doctor Locke, father of the groom, performed the ceremony in the presence of many friends and relatives. The pair were unattended. A reception followed the wedding. The happy pair will reside in Cambridge where Mr. Locke is a prominent attorney with a large practice.

### Accidents to Wheelmen.

Bicycle riders were out in force last night, and for a time they traveled in a bunch, raising a cloud of dust that they did not enjoy. A few mishaps occurred, but nothing serious. Charles Hall collided with a wheelman in the Diamond and both were thrown from their wheels but were not injured. A lady had a narrow escape at the corner of Fifth and Market streets, and a pedestrian further up in the Diamond had his toes pinched by a wheel passing over his foot, while hard falls were numerous among the wheelmen.

### A Brutal Letter.

That most contemptible of individuals, the anonymous letter writer, has again appeared in the city, and two parties have been served with communications. One letter was sent to the wife of a well known resident, and charged him with all the crimes of ordinary humanity. The animus of this could be found in a few sentences which declared the woman who would live with a man of that character was as bad as any one in the community. The lady was frightened into hysterics when she read the letter.

### The Cincinnati Plan is Dead.

The new telephone lines which the Cincinnati people proposed to put in our city have evidently been given up, nothing having been heard from them since their agents were in the city, some time ago, looking over the ground. The reduction in the rates by the Bell company was too much for them to compete with. The parties of the city interested in the scheme are in correspondence with a firm in New York, and think they will succeed in having them take up the project and push it through.

### Another Fish Story.

A well known uptown business man having read the stories in the News Review of the great amount of fish in the Ohio river, determined to test the truth of the report, and accordingly is a very much disgusted man. Having spent a couple of dollars for a pole, he got a friend and went fishing. Whether it was the new pole or not he could not say, but his friend caught fish as fast as he could pull them in, while the aforesaid business man couldn't get a bite.

### Crosser Can Have Them.

Sheriff Gill that is to be, owns a pair of canal boats, more commonly known as shoes, which he wore during the campaign, and which aided materially in getting nearly all the votes in the county. He has decided to lay them away and vows that Ed Crosser shall have them when he starts out for the recordship. He thinks Ed will be able to walk straight to victory in the patent leathers.

### Gone to England.

Mr. and Mrs. William Morris, of West Market street, left last night for New York where they sail for England next Saturday. They expect to remain on the other side of the water during the summer, and will visit their old home as well as many places of interest on the island. Mr. Morris is employed at the Standard, and will resume work when he returns.

### Saved the Rocker.

The leather rocker which was presented to Captain Thomas Calhoun several weeks ago by the crew of the Keystone State, was taken off the Iron Queen on the boat's last trip down at Georgetown. It, the cannon and a mirror were the only things saved. It is said that many persons visited the wreck daily and carry stuff away as relics.

### They Enjoyed the Evening.

The social session of the Elks last evening was a notable affair, 50 couples being in attendance. The musical and elocutionary program was the best ever heard in the rooms of the society, and the banquet was a feast that will linger in the memory of the fortunate ones present. Dancing occupied the remainder of the time.

### Squire Alma Dead.

Squire Alma, a respected resident of Ohioville who has long served Pennsylvania in an official capacity at Harrisburg, but was recently stricken with paralysis, was buried yesterday. He was a prominent figure in the politics of the county, and had the respect of all who knew him.

## STEPPED ON HIS HEEL

A Peculiar Accident to Edward Thompson.

A HORSE BROKE HIS LEG

Thompson Was Leading the Animal Along the Calcutta Road When It Wrenched His Leg so That the Bone Was Broken Above the Knee—It is a Painful and Serious Injury.

Edward Thompson, who lives on the Calcutta road, is in bed today nursing a broken leg, and all because a horse stepped on his heel.

Thompson and William McGonagle were exercising a horse owned by Walter Deville on the road last night, Thompson walking in front. The pace at which they were going was not alarming, and the victim did not realize that he was in danger until the broad hoof of the horse came down on the back part of his foot. The force was sufficient to turn the man half around, twisting him so that the left leg was broken above the knee, and not far from the thigh. He fell in a heap on the road, and his companions were compelled to carry him to his home near by. Medical aid was summoned, and it was discovered that the fracture was serious, and would keep the unfortunate man in bed for weeks. It is probable that a bone was never broken in the city in this way on any other occasion.

### Cameron Was Here.

William B. Cameron, the brother of Treasurer Cameron, who attempted suicide at Niagara Falls on Tuesday night, was well known in this city, and the story of his rash act, as it appeared in the News Review last evening, was the cause of much surprise. Cameron was here several days about two weeks ago calling on friends, and at that time gave no evidence of being mentally unsound. He was always known as a peculiar fellow, but none of his friends imagined that he was not as clear-minded as anyone. He is not dead, as was erroneously stated in a downtown paper last night.

### Tacks on the Street.

A party of small boys with peculiar ideas of fun liberally sprinkled tacks in the street near the Knowles, Taylor & Knowles plant and the postoffice last night. They were for the benefit of bicycle riders, and caused great annoyance. One wheelman caught a youngster in the act, and alighting from his machine soon convinced him that the toe of a rider's shoe is hard and painful. Billy Bott was also compelled to chastise a youth because he struck the tire of his wheel with a ball bat. As this amusement usually results in a broken wheel, Bott gave him a lesson he will not soon forget.

### May Rent the Pews.

At the congregational meeting held in the First Presbyterian church last evening a resolution was adopted authorizing the trustees to have the solicitors recanvass the members in an effort to increase the subscriptions. If they fail to secure the amount asked by the trustees for expenses during the church year the resolution permits the board to arrange for the meeting of the pews. The canvassers will begin work immediately, and expect to see all the members within a few days. The church has so much outside work that a goodly sum is required each year for expenses.

### Educating the Board.

The Turners have arranged for a calisthenic exhibition and entertainment to be given in their hall on Monday evening. The board of education and the school teachers have been invited to attend, the object being to show the benefits of physical culture as it is taught by the society. The program contains more interesting features than that given several months ago, and will be one of the best ever seen in the city. The Turners are anxious to have the system introduced in the schools.

### May Be Tried Tomorrow.

The authorities at city hall expect to have the trial of Mrs. Hamil take place tomorrow afternoon. She is charged with selling beer on Sunday, and it is believed she will ask for a jury. The police are working on the case, and expect to have more evidence than was given out when the arrest was made. It is hinted that there will be interesting testimony at the trial.

### The Circus.

Young America in a few days will be in the height of joy, as the billboards for Sells Bros. circus, which shows here May 13, are being erected in the city and the advance car will arrive here next week.

EAST LIVERPOOL, O., THURSDAY, APRIL 18

For President,  
WILLIAM MCKINLEY,  
OF OHIO.  
ALL the news all the time in the  
NEWS REVIEW.

If council hears the voice of the  
business men, that street sweeper will  
not be long in coming.

THERE is no excuse for the Republi-  
can who will not support the county  
ticket. It is one of the best ever  
nominated in Columbiana, and de-  
serves especially large majorities.

THE man who fills his back yard  
with garbage, and endangers not only  
the health of his own family, but  
places in jeopardy the lives of his  
neighbors, should receive the limit of  
the law.

THAT last letter from the pen of  
Grover Cleveland is causing the Dem-  
ocrats to hunt for their position.  
The situation seems to be assuming  
the position held by Charles A. Dana,  
who has been wondering whether  
there is a Democratic party.

NOW THAT there seems no chance  
of electing a Democratic president  
next year, some of the unfettered  
want to bestow the empty honor of  
the nomination upon some southern  
man. They should give it to Crisp—it  
would be appropriate to give him some-  
thing empty.

COUNCIL can find a fine field for  
labor if it moves in the direction of  
new sidewalks. It will win honor if  
the members have the courage to de-  
clare against the miserable board  
walks of the Calcutta road and the  
similar institutions of the West End.  
The walking public object to these  
nuisances, and look to council for  
speedy and permanent relief, as the  
patent medicine advertiser puts it.

THE Cincinnati Times-Star sagely  
asserts that "the Republicans will ad-  
here to sound financial doctrine,  
which is the popular doctrine, and  
they will put to the front in 1896 the  
great cause uppermost in the minds  
of the people—protection and reci-  
procity. On this issue chiefly the Re-  
publican party will be restored to  
power, and at the same time the  
honest money cause will also gain a  
signal victory."

A POLITICAL BLUNDER.  
With all its experience and brains,  
the Cincinnati Enquirer has blun-  
dered. It has attempted a great po-  
litical sensation, and with startling  
disregard for the Enquirer's promi-  
nence the story has refused to do  
nothing but fall very flat. The great  
organ of Democracy did its best to  
show that an investigation by the  
Franklin county grand jury into  
charges of legislative bribery was an  
attempt to crush the political aspira-  
tions of Joseph B. Foraker, organized  
and controlled by men who should be  
his friends. The story created no  
end of comment in Columbus, and  
brought forth denials by the dozen,  
yet so strong were the expressions for  
Foraker that the most obtuse politi-  
cian on earth could easily discern the  
trend of public sentiment. The Re-  
publicans of Ohio want Foraker to go  
to the senate as much as they wish to  
see McKinley in the White House.  
That is the feeling in all parts of the  
state, and it is the feeling that will  
elect the next legislature in spite of  
anything and everything the Dem-  
ocrats can do. The Enquirer does the  
whole state a wrong when it hints at  
the disgraceful methods said to have  
been used in that investigation. Ohio  
Republicans are politicians, but they  
are never scoundrels.

hall tonight under auspices of the  
Grand Army. Take your lady friends.

## ARMENIANS TO REBEL.

Sultan Hamid to Be Assailed in Constantinople.

### THE REVOLT PLANNED FOR MAY.

The Leaders Expect to Arouse the European Nations to Interference—Turkish Empire May Be Torn to Pieces—Christians May Rule Asia Minor.

(Copyrighted.)

LONDON, April 18.—The correspondent of the Associated Press, writing from Armenia, says: "I consider it to be my duty, in connection with the mission which has brought me to Asia minor, to make public a condition of the Armenian question so serious and alarming that the work of the Turkish commission of inquiry and even the details of Sassoun massacre must seem of little comparative importance. To obtain reliable information of this, I have traveled on horseback and in springless wagons many hundreds of miles in Russia and Persia, and have visited Armenian colonies as far east as the Caspian sea and as far south as the City of Teheran.

"Armenia is preparing for war. The revolutionary party has now both money and guns. Anyone who cares to take the journey that I have made, may verify the fact that the revolutionary party has money. During the past eight weeks money has poured into the revolutionary treasury in a steady stream from the Armenian colonies in Batoum, Tiflis, Baku, Erivan, Etchmiadzin and other places in Russia; and from Roscht, Kazvin, Teheran, Tebriz, Khoi and other cities in Persia. I have not visited the Armenian colonies on the north coast of the Black sea, nor the large colony at Isphan in Southern Persia, but I am reliably informed that revolutionary agents have been as busy there as elsewhere.

"The central idea of the plan of campaign is a general uprising of Armenians throughout the Turkish empire some time during the month of May. The exact date has not yet been fixed upon, but will be decided next month and communicated to the various sub-leaders by trusted messengers. It is hardly likely that a general uprising will be secured at first, although subsequent events may compel the entire Armenian population of Asia minor to fight in self-defense. The leaders have promised the people in the eastern part of Armenia that the chief attack will be made in the city of Constantinople itself, and that the brunt of the fighting will be borne by the Armenians resident therein; but this may be only a subterfuge to encourage the faint-hearted at Van, Bitlis and Moussh. The leaders have even gone so far as to declare that the first attack will be on the palace of the sultan, and that the reign of Hamid will come to a sudden end. There are men who believe that in the overthrow of Hamid the Armenians will be encouraged by the younger and more progressive generation of Constantinople Turks. As to the possibility of that, I can venture no opinion, although I have positive information that the younger Turks, particularly those who have traveled abroad, ardently wish that the present sultan was anywhere except on the throne.

"The Armenians have at least 3,000 Martini-Henry rifles hidden in secret places in the mountains not a great distance from Lake Van. It is a matter of unconcern to the Turkish soldier what is brought into Armenia as long as he gets a bribe now and then to eke out the microscopic proportions of his pay. The caravan routes are open and revolutionary agents and refugees are able to move freely to and from Armenia as camel drivers and attendants of mule trains. Camels for this purpose have actually been purchased in Tebriz and Teheran. It is a very easy matter to buy guns in Tiflis, as there are numerous gunshops, and nearly every human being goes armed, contrary to Russian law, which, in the Caucasus region, is a dead letter.

"The Sassoun refugees at Etchmiadzin are preparing to return to Armenia. One would suppose that these men would be satisfied to remain in Russia, after the trouble they took to get there; but it is a fact that they are going back. Moreover they are going back with guns in their hands. There are, or were, about 300 refugees at Etchmiadzin, which is the home of Mr. Khirman, father of all the Armenians. For a handful of untrained Armenians to deliberately begin a fight with 300,000 regular troops of the Turkish empire is folly too colossal for human conception; yet one must take into account the underlying motives of the revolutionary leaders before passing final judgment.

"The purpose is not to bring Turkey to terms in a fair fight, but to secure a settlement of the quarrel by the intervention of the European powers. Before the revolution is three months old, the powers, it is believed, will be compelled to take a hand in the conflict, for the cruelty, atrocity, the outrage, the blood lust and butchery of the struggle will be so unthinkably horrible that Christian humanity will interfere. Then Armenia, it is hoped, may get her freedom and the Turkish empire may be torn limb from limb and

thrown piecemeal to its expectant neighbors. Thus there is a possibility that Palestine, the birthplace of Christianity, may at last come into the possession of a Christian nation.

For the most part, the revolutionary leaders are of the younger and more progressive generation of Armenians. They are the men who know the benefits of civilization, justice and government, for they have been educated in Russia, France or in England. I seriously doubt if those plans are known in detail to more than 5 per cent of the Armenians. Armenians generally are laboring under the impression that in May, the Kurds and Turks mean to attack them and they must prepare to defend themselves.

"Mr. Khirman, the head of the Armenian church, desires that the Russian government shall do something to end the misery of Armenia, and he has asked permission to go to St. Petersburg to make a personal appeal to the czar. This request has been refused. What that may mean, no one outside of St. Petersburg can tell beyond the supposition that the czar does not wish to take any action until the Turkish commission has had a fair chance to show what it means to do. Furthermore, although Russia could put an end to the Armenian question in a day if she chose to do so, no one knows what she intends to do, nor can anyone say that the rumor is true that a branch line of railway will be built from Tiflis to Kars, on the Turkish frontier, with the beginning of spring. There is a belief in Europe that Russia desires to make the Armenians Russian subjects by annexing the eastern end of Turkey. As the time for the revolutionary uprising approaches, the words of the Armenian Catholic, Mr. Khirman, have an added significance: 'Armenia is in sore distress; but her suffering will soon be at an end.'

### SENSATION AT SPRINGFIELD.

Prominent Citizens in a Shooting Affray Over One's Wife.

SPRINGFIELD, O., April 18.—R. F. Ludlow, superintendent of the Springfield Malleable Ironworks, has been shot at three times on the streets by D. Z. Gardner, a prominent attorney. Ludlow met Gardner on the street with his wife and asked what it meant. He attempted to grapple with Gardner, when the shooting occurred, none of the shots taking effect. Ludlow's wife had recently sued him for divorce, but their troubles had been adjusted. A complaint was lodged with the police against Gardner. His friends say his meeting with Mrs. Ludlow was a professional one, and there was nothing improper about it.

Gardner said he met Mrs. Ludlow at her request as her attorney. Mrs. Ludlow declared that her husband knocked Gardner down, and the latter fired the shots while lying on the ground.

### GREENHUT IS OUSTED.

Whisky Trust Reorganization Committee Fires Him—Libel Suits Filed.

PEORIA, Ill., April 18.—The whisky trust reorganization committee carried the annual stockholders' meeting of the Distilling and Cattle Feeding company by storm, and when they adjourned had deposed ex-President Greenhut, elected a full board of directors and empowered the board to take any necessary action toward recovering from the trust's late officials any property that may be due to the corporation.

But Mr. Greenhut was not at all docile, being present at the meeting with objections at every turn, refusing to resign as director, and before adjournment he personally superintended the serving of papers in 11 libel suits of \$50,000 each, upon the members of the reorganization committee, Receiver McNulta and others.

### LOCAL BREVITIES.

A number of young people from this city will attend a private dance in Wellsville this evening.

The remains of Thomas Clark were taken to Beaver on the 6:10 train last night, accompanied by the family, and the funeral took place at 2 o'clock this afternoon in the latter city. A party of Columbian club boys were in attendance.

The funeral of the little child of Samuel Ashbaugh took place from the family residence, Fifth and Jefferson streets, at 2 o'clock this afternoon. Doctor Huston officiating. The remains were laid to rest in Spring Grove cemetery.

The Ladies of the Golden Eagle surprised the Knights at their meeting in Junior Mechanic hall yesterday evening by calling in force. The evening was very enjoyably spent, the crowd indulging in ice cream and cake and enjoying games to their heart's content.

A party from this city attended a reception given by a number of Georgetown young ladies Tuesday evening. The affair was held in the Trumbull hotel and was attended by a large crowd, the evening being enjoyably spent. Messrs. Colclough and Mannypenny, of this city, furnished music.

Workmen were put to work today rolling the East End race track. A large number of horses from this city and the surrounding towns will be trained for the track at the park, and an exciting season is expected. The city now has within its limits some good horses, whose owners believe in speeding them on dirt in preference to a paved street.

The Degree of Rebekah will meet in regular session on Tuesday evening next and will initiate three candidates. A report from the delegates to the state meeting will be heard, and after the meeting a social will be held. Mrs. Henry, of Akron, who was elected vice president at the state convention, is a sister of Mrs. Clements, of this city. The next meeting will be held in Zanesville.

Occasionally a stranger drops into city hall, and invariably notices the numerous cracks in the building. A recent visitor was surprised at the condition of the walls, and stated that in wide travels he had never seen a city building in a more dangerous condition. He thinks the building should be condemned, and that the proper officials should at once begin arrangements for a new structure.

Superintendent Andrews, of the electric line, returned yesterday from Cleveland, where he went for rest more than business. He states that there has been no further move made toward the switch changes at the power house, as mentioned in the News Review when Mr. Davies was here recently, and even the important subject of a new trolley was not discussed. In fact Mr. Andrews says he didn't talk shop at all.

A team of horses attached to a wagon owned by a farmer whose name could not be learned, became frightened on Second street yesterday afternoon by a pack of barking dogs, with which that thoroughfare is infected, and ran away. An exciting chase ensued, in which a number of citizens participated, and the team was finally captured. The only injury to the wagon was two spokes broken from one of the wheels, caused by colliding with the curb.

Doctor Ogden and Officer King are anxious to have the city cleaned, and have issued a notice ordering the removal of all garbage. The health authorities want the city cleaned as soon as possible, and expect to have the back yards and cellars inspected in a short time in order to determine how well the order has been carried out. The snow was on the ground so long that the city became much dirtier than usual, and as yet there has been no general move toward cleaning up.

The assessors while going their rounds sometimes meet with very amusing incidents, especially in the dog line. One of the assessors on entering a house the other day was met by a canine, who threatened to partake of a portion of the gentleman's trousers. On asking the lady of the house if she owned a dog she replied in the negative. The canine, however, seemed perfectly at home while quietly reposing under the stove, and the assessor, amid numerous protests from the lady, chalked down "one dog."

Bicyclists are bothered much these days by small boys who set their dogs on them; but one wheelman was revenged on Fifth street last evening. A small dog owned by a youngster was "sicked on" the rider, and was running along snapping at his heels as the victim was making the pedals revolve rapidly. Just then a bull dog jumped out and in a moment had removed several chunks of flesh from the other canine. The owner carried the remains home crying and has probably decided to let cyclists strictly alone. Meanwhile the wheelman laughs.

### FOUR UNFORTUNATES.

They Want Divorces From the Partners of Their Joys and Sorrows.

Special to NEWS REVIEW.

LISBON, April 18.—This is the banner day for divorce applications, four being filed here since Clerk King returned from dinner.

The first claimant is Mrs. Eliza Ferguson, of Washingtonville, who wants permanent separation from her husband. She claims that Hugh Ferguson has treated her cruelly for several years, and she is tired of it. They have been married for three years.

Mrs. Ella Tounley in her petition wants the court to separate her from her husband Isaac, who has been guilty of habitual drunkenness and gross neglect for three years. They were married in 1882, and are residents of Hanover. She also asks for her maiden name.

John Haas is the only man among the applicants with an expressed desire to return to single blessedness. He was married to his wife, Lizzie, in Stark county four years ago, and he charges that his wife has been absent for three years. They have one child, who has been living with him in Salem, and he would like to have the court give it to him legally.

The last of the applicants is Mrs. Hannah S. Bortchey, who wants a divorce from her husband, Frederick. They were married six years ago, and have a child five years of age, and she wants. She also asks for reasonable alimony. They are residents of Knox township.

In defiance of these applicants for divorce, one marriage license was issued today.

### At the Grand.

Everybody will be glad to know that the funniest play produced in London is to be here at the Grand on Saturday night. It is called "The New Boy." It has crowded more theaters and made more people laugh than any attraction since Artemus Ward. A wild, harum-scarum school boy, with whom all the girls are in love, is discovered to be the husband of the beautiful matron whom the proprietor wants to marry. The boy proves himself too "smart" for them all. He out-wits the villain of the play, wins the gratitude of the doctor, and carries off his wife in triumph, yet the top of his head is scarcely to her shoulder. His voice is thin and piping, but he is a winner and a terror. Bert Coote, formerly with Patti Rosa, Frank Daniels and Verona Jarbeau, plays the title role.

### In Squires' Court.

The case of Thomas Mears Sons versus Mrs. Anna Woolcraft was called in Squire Morley's court yesterday, the squire having received his commission but owing to the illness of Mr. Mears it was indefinitely postponed.

The case of Dr. L. O. Williams versus the Nott Brothers, a case in ejectment was compromised this afternoon after it had been called for trial at 1 o'clock before Squire Rose and a jury composed of George Kauffman, Thomas Heath, Thomas Bennett, James Finley, H. L. Simms, Harry Gaston. The case was settled by payment of the rent due.

Squire Rose yesterday rendered judgment for \$15 for plaintiff in the case of Sommers Brothers versus L. J. McGhie.

### Counting Those Who Cross.

A stranger representing a corporation interested in the proposed bridge has been here for several days doing nothing but count the persons who come to Liverpool from West Virginia. A friend who knows the business of the young man is responsible for the statement that the work is to extend over 10 days, and the average will then be taken in order that some estimate be made of the patronage if a bridge was built. Recently he found that 304 persons crossed the river on the ferry in one day.

### House Cleaning at City Hall.

John Burns, the only prisoner at city hall, spent a portion of today doing the spring cleaning, and endeavoring to convince the authorities that he was doing good work. John was released from the workhouse at Canton only a short time ago, and his arrest so soon after the expiration of his term is looked upon as a special dispensation of Providence in order to have the accumulated dirt removed from the city building.

### Bridge Men in Town.

Several representatives of contracting firms were in town last night and today on business connected with the new bridge. They kept their plans to themselves, and refused to talk for publication beyond laughing at the idea the bridge would not be built. They were confident, and are in position to know.

### WALLER'S CASE NOT DROPPED.

The United States Investigating His Mis-treatment by French in Madagascar.

WASHINGTON, April 18.—The state department has by no means abandoned the case of ex-United States Consul Waller, who is now imprisoned in Madagascar under sentence of a French courtmartial, and as soon as it has completed the preparation of data supplied by the United States consuls at Tama-tave and Port Louis the case will be brought to the attention of the French government by Ambassador Eustis, the release of the prisoner will be requested and an explanation sought.

The facts which the department expects to prove as a basis for this action are, first, that Waller is an American citizen; second, that he was not guilty of any improper interference between the French and the Hovas; third, that even if he were, he had not been accorded the fair trial to which he was entitled, the courtmartial proceedings being obnoxious in every respect; and, lastly, that Waller has been harshly treated and has been the object of persecution, because he stood in the way of other holders of concessions.

### PEACE TERMS SECRET.

Japs Won't Disclose Them Until They Are Ratified.

LONDON, April 18.—The Times today publishes a dispatch from Kobe saying that the Japanese refuse to disclose the terms upon which peace has been arranged with China, until the treaty is ratified, which must be within three weeks. The armistice, therefore, is extended to May 8. Viceroy Li Hung Chang has left Shimonoseki on his return to China.

A rumor that the Japanese plenipotentiaries abated their demands created much excitement. Seven newspapers of Tokio have been suppressed and an imperial ordinance will shortly be promulgated adopting stringent measures against disaffection.

### Baptist Missionary Convention.

## A CHICKASAW REVOLT.

Battle Raging Between the Governor and 200 Rebels.

## SIX KILLED AND EIGHT WOUNDED.

The Cause of the Trouble Due to Bad Political Blood—Tishomingo in a Terrible State of Excitement—White People Fleeing From the Scene.

GUTHRIE, O. T., April 18.—Couriers just arrived here from Tishomingo, the capital of the Chickasaw nation, report that a battle is raging between Governor Moseley and 200 insurrectionists. Six people have been killed and eight wounded, so the report says, and the greatest excitement prevails. The cause of the trouble is due to bad political blood, which has long pervaded the Chickasaw seat of government, and has existed since the legislature ignored Willis Brown, Charles Brown and Noah McGill, who claim to have been duly elected sheriffs of the nation, alleging that the legislature did not have authority to reject their claims to such offices.

On Tuesday morning Governor Moseley issued orders to all sheriffs, constables and deputies throughout the nation to report to him at once with arms. When the officers gathered around the house 200 armed men, headed by McGill and the Brown brothers, rushed from adjoining houses and a deadly riot followed. The names of the dead and wounded could not be ascertained by the couriers, owing to the great excitement which prevailed. Governor Moseley and his official retinue escaped by rushing to houses on the outskirts of the town. Moseley has called a special session of the legislature to take action. Tishomingo is now in a terrible state of excitement and white people are fleeing.

Another fight is looked for at any moment.

## A PASSIVE BLOCKADE.

England's Probable Plan in Regard to Nicaragua.

WASHINGTON, April 18.—So far as the state department knows Great Britain has not rejected Nicaragua's proposition made in answer to the British ultimatum, to submit the claims for indemnity to arbitration. It is still believed here that Great Britain will not act hastily in the matter, and at the state department there is an impression that no serious trouble will ensue.

Officials here profess to have no information as yet to the instructions sent to British war vessels for the enforcement of the ultimatum. Those in a position to understand the status of affairs, however, express the belief that the British instructions are to enforce a passive blockade. The "passive blockage" is designed to cripple the internal commerce of Nicaragua and yet to leave all foreign commerce to proceed as usual.
